VIP/Passenger Charters

Passenger Group Charters

As one of the region's top specialists in providing conference and incentive travel, we regularly source passenger airliners of all types for group flight operations.

We can supply regional turbo props and jets for up to 50 passengers and all categories of narrow and wide body airliners up to the largest long-range aircraft. In fact, a private charter is often the most cost-efficient way to transport a large group.

We also provide charter solutions in unplanned circumstances, such as emergency evacuation and repatriation flights. We have many years of experience of such operations to ensure a calm and professional approach even in the wake of a major incident.

VIP Charters

Since 2000, A&B Aviation has been providing cost-effective air charter services to the most discerning travelers who expect nothing less than the very best.

Whether it's Heads of State, Diplomats, Senior Public Servants, International Dignitaries or Chief Executive Officers of major companies, all VIP's enjoy a 5-star service.

Government and diplomatic flights involving Heads of State and other high-profile passengers demand delicate handling. Naturally, security of the passengers is critical, but there are other operational and political challenges.

We have successfully managed many projects of this type, from short haul trips to round the world diplomatic flights. Thanks to our global network, we can often provide local airport assistance and onboard Flight Managers to ensure the smooth operation of such projects.

Our reputation for exceeding expectations is illustrated by the high level of repeat business and referrals we receive.
